A

Abstracts—Association for Ambulatory Pediatric Services, Atlantic City, May 3, 1961, 139
Emergency clinic—a study of its role in a teaching hospital (Bergman and Haggerty), 143
Incorporating a poison control center in a pediatric teaching program (Robertson and Ambuel), 140
Introduction (W. E. N.), 139
Problems in the outpatient management of phenylketonuria (Berlow, Arends, and Barsch), 140
Relationships of doctors-in-training with pediatric outpatients (Glaser, Lynn, and Harrison), 142
Study of hospital services for children (Green, Segar, and Wurster), 141
Acid, amino, serum, nitrogen, in infancy and childhood (Andrews, Bruton, and de Baare), 201
fatty, composition of serum chylomicrons and adipose tissue of children with cystic fibrosis of pancreas (Kuo, Huang, and Bassett), 394
Acid-secreting function of renal tubule (Brodsky and Carrasquer), 769
ACTH, long-term effects of, and cortisone therapy in rheumatic fever (Friedman, Harris, and Caddell), 55
Acute benign erythroblastopenia possibly chloramphenicol induced (Ghitis), 566
leukemia, listeriosis complicating (Delta and Pinkel), 191
Acyanotic congenital heart disease, intracardiac, auscultation in diagnosis (Kaplan and Daoud), 746
Adenoma, adrenocortical, with Cushing's syndrome and virilism in 5-year-old (Puzynski and Biehusen), 836
pancreatic islet cell, hypoglycemia due to (François et al.), 721
Adipose tissue and serum chylomicrons of children with cystic fibrosis of pancreas, fatty acid composition of (Kuo, Huang, and Bassett), 394
Adrenocortical adenoma with Cushing's syndrome and virilism in 5-year-old (Puzynski and Biehusen), 836
African children in Northern Rhodesia, vitamin A deficiency in (Friis-Hansen and McCullough), 114
Agammaglobulinemia, decade with (Bruton), 672
Air, expired, water in: physiology and measurement (Bruck), 869
Allergic vasculitis: livedo reticularis (Bradford, Cook, and Vawter), 266
Amino acid nitrogen, serum, in infancy and childhood (Andrews, Bruton, and de Baare), 201
Aminoaciduria, increased, of kwashiorkor, factors responsible for (Schendel and Hansen), 280
as manifestation of renal tubular injury in lead intoxication and comparison with patterns of aminoaciduria in other diseases (Chisolm), 1
in vitamin D deficiency states in premature infants and older infants with rickets (Chisolm and Harrison), 206
Anemia, iron deficiency, gastrointestinal dysfunction in infants with (Wilson, Heiner, and Lahey), 787
megaloblastic, associated with kwashiorkor and marasmus, serum vitamin B_{12} concentrations in (Adams and Scragg), 580
sickle cell. XIX. Priapism as complication in children (Sousa, Catoe, and Scott), 52
renal disease with elements of nephrotic syndrome associated with (Sweeney, Dobbins, and Etteldorf), 42
Animal sera and specific enzymes in treatment of poisoning (Shirkey et al.), 711
Anomalous pulmonary venous drainage, total, and stenosis of pulmonary veins (CPC), 947
Antenatal origin of disease; balanced perspective (editorial), 644
Arthrogryposis and coexistent spinal neuromuscular disease (CPC), 623
Artificial hibernation (Véghelyi), 122
Association for Ambulatory Pediatric Services, Atlantic City, May 3, 1961, 139
Atypical mononuclear leukocytes, significance of (Vaughn and Greenberg), 177
Auscultation in diagnosis of intracardiac acyanotic congenital heart disease (Kaplan and Daoud), 746
Autoimmunization, homologous disease (Blattner), 154
Autosomal trisomy of Group 16-18 chromosome (German et al.), 503

B

Baby-mother oxygen gradients (Graham), 882
Bacterial polysaccharides of Escherichia coli during enteritis, sensitization of infant red cells by (Young, Gillem, and Akeroyd), 172
Benign, acute, erythroblastopenia possibly chloramphenicol induced (Ghitis), 566
Bilirubin rebound after exchange transfusion, hemolysis as contributing factor in (Kauder and Mauer), 163
Body burden of lead, deciduous teeth as index of (Altshuller et al.), 224

*January, pp. 1-162; February, pp. 163-326; March, pp. 327-486; April, pp. 487-646; May, pp. 647-806; June, pp. 807-980.

Body—Cont'd
foreign, in stomach of premature infant (McCollough), 277
water, total, and exchangeable chloride during infancy, sex-related difference in (Owen, Jensen, and Fomon), 858
Bonds, disulfide, in acquisition of immunologic specificity (Karush), 103
Book reviews: Cardiopulmonary data for children and young adults (Cassels and Morse), 958
Ciba Foundation symposium on somatic stability in the newly born (Wolstenholme and O'Connor, editors), 469
Compleat pediatrician (W. C. D.), 320
Education and physical growth (Tanner), 319
Life's key—DNA: a biological adventure into the unknown (Hutchin), 636
Medical genetics, 1958-1960: an annotated review (McKusick), 957
Microtechniques of clinical chemistry (Natelson), 957
Problems of infection, immunity and allergy in acute radiation diseases (Klemparskaya et al.), 158
Progress in meeting protein needs of infants and preschool children (Proc. Internat. Conference, 1960), 958
Books: New books received, 157, 319, 468, 636, 956
Brief psychotherapy in pediatric practice, use of (Coddington), 259
Bureau, Children's (April 9, 1912—April 9, 1962) (editorial), 643

C

Caloric intake, relationships to. I. Physical development of premature infant (Falkner, Steigman, and Cruise), 895
Cardiac lesions in hemolytic disease of newborn (Hogg), 352
Cardiologic observation, 5 to 8 years after hormone therapy in controlled study. ACTH and cortisone therapy in rheumatic fever (Friedman, Harris, and Caddell), 55
Carrier state in hemophilia A (Githens and Wilcox), 77
Central nervous system manifestations of leukemia (Steffey), 183
Chemistry of inheritance, recent advances in (Cohen), 586
Chemotherapy in identical twin infants with concordant leukemia, parallel responses to (Wolman), 91
Children of Hadza hunters (Jelliffe et al.), 907
Melanesian, pneumocystis carinii infection in (Ryan), 914
of mothers who work (editorial), 484
Uganda, treatment of vitiligo with 8-methoxypsoralen in (Lanceley, Lanceley, and Jelliffe), 572
Children's Bureau, fiftieth anniversary greetings to (editorial), 643
Chloramphenicol induced, acute benign erythroblastopenia possibly (Ghitis), 566
Chloride content of sweat, skin resistance to electricity and (Batson, Young, and Shepard), 716
exchangeable, and total body water during infancy, sex-related difference in (Owen, Jensen, and Fomon), 858
Choriomeningitis virus, lymphocytic, parotitis, orchitis, and meningoencephalitis due to (Blattner), 633
Chromium^{51} red cell survival studies. Thrombotic thrombocytopenic purpura (Swaiman, Schaffhausen, and Krivit), 823
Chromosomal studies, apparent masculinization of female fetus diagnosed as true hermaphrodism by (Waxman, Gartler, and Kelley), 540
Chromosome, Group 16-18, autosomal trisomy (German et al.), 503
mosaic pattern with Mongolism (Nichols et al.), 69
studies in diagnosis of Mongolism (Conen, Bell, and Rance), 533
Chylomicrons, serum, and adipose tissue of children with cystic fibrosis of pancreas, fatty acid composition of (Kuo, Huang, and Bassett), 394
Clinical, electroencephalographic, and roentgenographic findings in children with epilepsy, correlation of (Lundervold and Jabbour), 220
Clinical pathological conference: Arthrogryposis and coexistent muscular dystrophy or arthrogryposis and coexistent spinal neuromuscular disease, 623
Fetal hemorrhages, 304
Total anomalous pulmonary venous drainage and stenosis of pulmonary veins, 947
Tuberculosis, 145
Clinical significance of postoperative roentgen studies in pyloric stenosis (Bishop and Hope), 62
Coexistent muscular dystrophy and arthrogryposis (CPC), 623
Comments on current literature: Homologous disease: autoimmunization (Blattner), 154
Increased intracranial pressure in vitamin A–deficient infants (Blattner), 953
Japanese B encephalitis in continental United States (Blattner), 315
Parotitis, orchitis, and meningoencephalitis due to lymphocytic choriomeningitis virus (Blattner), 633
Subacute inclusion body encephalitis (Blattner), 465
Concordant leukemia, parallel responses to chemotherapy in identical twin infants with (Wolman), 91
Congenital heart disease, intracardiac acyanotic, auscultation in diagnosis (Kaplan and Daoud), 746
hemolytic disorders, metabolism of glucose by erythrocytes from patients with (Zinkham), 614
urinary tract anomalies and deafness in siblings, familial nephrosis with (Braun and Bayer), 33

Congestive heart failure in infancy: significance of the venous pressure (Moss and Duffie), 346
Conjugated estrogens and meprobamate (Milprem), acute poisoning in child due to ingestion of (Hyatt), 414
Constituent, urinary, of newborn (Rhodes, Hammel, and Berman), 18
Contributors to issue in honor of Katharine Dodd, 654
Control, poison, center in pediatric teaching program, incorporating a (Robertson and Ambuel), 140 (Abst.)
Correspondence, 159, 470, 637, 959
Corticosteroids, indices of activity in rheumatic fever treated with (Walker et al.), 815
Cortisone therapy and ACTH, long-term effects of, in rheumatic fever (Friedman, Harris, and Caddell), 55
Cretinism, sporadic, role of thyroid dysgenesis and maldescent in etiology of (Gabr), 830
Cushing's syndrome and virilism in 5-year-old, adrenocortical adenoma with (Puzynski and Biehusen), 836
Cystic fibrosis of pancreas, fatty acid composition of serum chylomicrons and adipose tissue of children with (Kuo, Huang, and Bassett), 394
Cytoplasm, aspects of structure and function in (Lowe), 601

D

Deafness and congenital urinary tract anomalies in siblings, familial nephrosis with (Braun and Bayer), 33
Decade with agammaglobulinemia (Bruton), 672
Deciduous teeth as index of body burden of lead (Altshuller et al.), 224
Deficiency, vitamin A, in African children in Northern Rhodesia (Friis-Hansen and McCullough), 114
D, state in premature infants and older infants with rickets, aminoaciduria in (Chisolm and Harrison), 206
Delinquency, pediatrics, psychiatry and (Stapleton), 740
Deposition, subcutaneous glycogen and peripheral edema following initial treatment of diabetes mellitus in children, occurrence of (Klein et al.), 807
Development, physical, of premature infant. I. Standards and certain relationships to caloric intake (Falkner, Steigman, and Cruise), 895
Diabetes mellitus in children, occurrence of peripheral edema and subcutaneous glycogen deposition following (Klein et al.), 807
Diagnosis of Mongolism, chromosome studies in (Conen, Bell, and Rance), 533
Dialysis, peritoneal, intermittent, in management of acute renal failure in children (Ettel-dorf et al.), 327
Disability, reading, in children (O'Sullivan and Pryles), 369
Disease, antenatal origin of: balanced perspective (editorial), 644
coexistent spinal neuromuscular, and arthrogryposis (CPC), 623
familial Letterer-Siwe (Rogers and Benson), 550
glycogen storage, glucagon tolerance test in (Hug), 545
hemolytic, of newborn, cardiac lesions in (Hogg), 352
homologous: autoimmunization (Blattner), 154
renal, with elements of nephrotic syndrome associated with sickle cell anemia (Sweeney, Dobbins, and Etteldorf), 42
Disulfide bonds in acquisition of immunologic specificity (Karush), 103
Doctors-in-training with pediatric outpatients, relationships of (Glaser, Lynn, and Harrison), 142 (Abst.)
Dodd, Katharine (Weech), 650
curriculum vital, 649
foreword to issue in honor of (Steigman), 647
Double trisomy: trisomy No. 18 and triplo-X (Uchida et al.), 498
Drainage, total anomolous pulmonary venous (CPC), 947
Duplications of gastrointestinal tract (Oeconomopoulos and Swenson), 361
Dysgenesis, thyroid, and maldescent in etiology of sporadic cretinism, role of (Gabr), 830
Dysostosis, metaphyseal: questionably form of vitamin D–resistant rickets (Peterson), 656
Dystrophy, muscular, coexistent, and arthrogryposis (CPC), 623
in infancy (Lewis and Besant), 376

E

Edema, peripheral and subcutaneous glycogen deposition following initial treatment of diabetes mellitus in children, occurrence of (Klein et al.), 807
Editor's column: Antenatal origin of disease; a balanced perspective, 644
Children of mothers who work (Bakwin), 484
Children's Bureau (April 9, 1912—April 9, 1962), 643
Fiftieth anniversary greetings to the Children's Bureau, 643
National Institute of Child Health and Human Development (Cook), 324
Electricity, skin resistance to, and sweat chloride content (Batson, Young, and Shepard), 716
Electrocardiographic studies in dogs with experimental magnesium deficiency (Sylm-Rapoport), 801
Electroencephalographic, clinical, and roentgenographic findings in children with epilepsy, correlation of (Lundervold and Jabbour), 220
Emergency clinic—its role in teaching hospital (Bergman and Haggerty), 143 (Abst.)
Encephalitis, Japanese B, in continental United States (Blattner), 315
subacute inclusion body (Blattner), 465

Enteritis, regional, juvenile, periodic fever in (Walker), 561
sensitization of infant red cells by bacterial polysaccharides of Escherichia coli during (Young, Gillem, and Akeroyd), 172
Enterobiasis (pinworm infection) in home, pyrvinium pamoate in treatment of (Turner and Johnson), 243
Enzymes, specific, animal sera and, in treatment of poisoning (Shirkey et al.), 711
Epidemic hemorrhagic fever (Gajdusek), 841
Epilepsy, correlation of clinical, electroencephalographic, and roentgenographic findings in children with (Lundervold and Jabbour), 220
temporal lobe, in children (Chao, Sexton, and Santos Pardo), 686
Erythroblastopenia, acute benign, possibly chloramphenicol induced (Ghitis), 566
Erythrocytes from patients with congenital hemolytic disorders, metabolism of glucose by (Zinkham), 614
Escherichia coli during enteritis, sensitization of infant red cells by bacterial polysaccharides of (Young, Gillem, and Akeroyd), 172
Esophagus in newborn, spontaneous rupture of (Chunn and Geppert), 404
Estrogens, conjugated, and meprobamate (Milprem) acute poisoning in child due to ingestion of (Hyatt), 414
Exchange transfusion hemolysis as contributing factor in bilirubin rebound after (Kauder and Mauer), 163
Experimental nephrosis produced by isosensitization in rats (Fontana, Kuttner, and Kyriakopula), 195
Expired air, water in: physiology and measurement (Bruck), 869

F

Failure, congestive heart, in infancy: significance of venous pressure (Moss and Duffie), 346
renal, acute, in children, intermittent peritoneal dialysis in management of (Etteldorf et al.), 327
Familial Letterer-Siwe disease (Rogers and Benson), 550
nephrosis associated with deafness and congenital urinary tract anomalies in siblings (Braun and Bayer), 33
occurrence of malrotation in intestine (Townes, Wunderlich, and Gerbasi), 555
Fatty acid composition of serum chylomicrons and adipose tissue of children with cystic fibrosis of pancreas (Kuo, Huang, and Bassett), 394
Fetal hemorrhages (CPC), 304
kidney, human, studies (Vernier and Birch-Andersen), 754
Fetus, female, apparent masculinization of, diagnosed as true hermaphrodism by chromosomal studies (Waxman, Gartler, and Kelley), 540
Fever, periodic, in juvenile regional enteritis (Walker), 561
rheumatic, long-term effects of ACTH and cortisone therapy in (Friedman, Harris and Caddell), 55
treated with corticosteroids, indices of activity in (Walker et al.), 815
Fibrosis, cystic, of pancreas, fatty acid composition of serum chylomicrons and adipose tissue of children with (Kuo, Huang and Bassett), 394
Fiftieth anniversary greetings to Children's Bureau (editorial), 643
Focal scleroderma (Chazen, Cook, and Cohen), 385
Foreign body in stomach of premature infant (McCollough), 277
Function and structure in cytoplasm, aspects of (Lowe), 601

G

Gastrointestinal dysfunction in infants with iron deficiency anemia (Wilson, Heiner, and Lahey), 787
tract, duplications of (Oeconomopoulos and Swenson), 361
Glomerulonephritis, acute, associated with impetigo (Blumberg and Feldman), 677
Glomerulus, development (Vernier and Birch-Andersen), 754
Glucagon tolerance test in glycogen storage disease (Hug), 545
Glucose, metabolism of, by erythrocytes from patients with congenital hemolytic disorders (Zinkham), 614
Glycogen storage disease, glucagon tolerance test in (Hug), 545
subcutaneous, deposition and peripheral edema following initial treatment of diabetes mellitus in children, occurrence of (Klein et al.), 807
Glycoproteins of serum (West and Hong), 430
Gradients, mother-baby oxygen (Graham), 882
Group 16-18 chromosome, autosomal trisomy of (German et al.), 503
Growth in refractory rickets (Steendijk), 340

H

Hadza hunters, children of (Jelliffe et al.), 907
Heart disease, congenital, intracardiac acyanotic, auscultation in diagnosis (Kaplan and Daoud), 746
failure, congestive, in infancy: significance of venous pressure (Moss and Duffie), 346
Hematuria, "idiopathic" (Travis et al.), 24
Hemolysis as contributing factor in bilirubin rebound after exchange transfusion (Kauder and Mauer), 163
Hemolytic disease of newborn, cardiac lesions in (Hogg), 352
disorders, congenital, metabolism of glucose by erythrocytes from patients with (Zinkham), 614
Hemophilia A, carrier state in (Githens and Wilcox), 77

Hemorrhages, fetal (CPC), 304
Hemorrhagic fevers, virus (Gajdusek), 841
Hermaphrodism, true, by chromosomal studies, apparent masculinization of female fetus diagnosed as (Waxman, Gartler, and Kelley), 540
Hibernation, artificial (Véghelyi), 122
Histidinemia (Auerbach et al.), 487
Home, pyrvinium pamoate in treatment of pinworm infection (enterobiasis) in (Turner and Johnson), 243
Homologous disease: autoimmunization (Blattner), 154
Homotransplantation research in relation to pediatrics, current trends in (Fowler), 917
Hormone therapy, cardiologic observation 5 to 8 years after. ACTH and cortisone therapy in rheumatic fever (Friedman, Harris, and Caddell), 55
Hospital services for children (Green, Segar, and Wurster), 141 (Abst.)
Human fetal kidney, studies (Vernier and Birch-Andersen), 754
Hunters, Hadza, children of (Jelliffe et al.), 907
Hydrocephalus, ventriculopleural shunt procedure for (Kessler and Stern), 418
Hypofibrinogenemia and leukopenia in thrombotic thrombocytopenic purpura (Bukowski and Koblenzer), 84
Hypoglycemia due to pancreatic islet cell adenoma (François et al.), 721

I

Identical twin infants with concordant leukemia, parallel responses to chemotherapy in (Wolman), 91
"Idiopathic" hematuria (Travis et al.), 24
Immunologic specificity, disulfide bonds in acquisition of (Karush), 103
Impetigo, acute glomerulonephritis associated with (Blumberg and Feldman), 677
Inclusion body encephalitis, subacute (Blattner), 465
Infancy, sex-related difference in total body water and exchangeable chloride during (Owen, Jensen, and Fomon), 858
Infant red cells, sensitization, by bacterial polysaccharides of Escherichia coli during enteritis (Young, Gillem, and Akeroyd), 172
Infection, mycobacterial, nontuberculosis, in children (Hsu), 705
  pinworm (enterobiasis) in home, pyrvinium pamoate in treatment of (Turner and Johnson), 243
  pneumocystis carinii, in Melanesian children (Ryan), 914
Inheritance, chemistry of, recent advances in (Cohen), 586
Injection, umbilical vessel, neonatal sciatic palsy after (San Agustin, Nitowsky, and Borden), 408
Intestine, familial occurrence of malrotation of (Townes, Wunderlich, and Gerbasi), 555
Intoxication, lead, aminoaciduria with renal tubular injury in, as compared with aminoaciduria in other diseases (Chisolm), 1
Intracranial pressure, increased, in vitamin A–deficient infants (Blattner), 953
Intramuscular meprobamate in treatment of tetanus in infants and children (Howard and DeVere), 421
Introduction, Abstracts of Association for Ambulatory Pediatric Services, Atlantic City, May 3, 1961 (W. E. N.), 139
Iron deficiency anemia, gastrointestinal dysfunction in infants with (Wilson, Heiner, and Lahey), 787
  metabolism, studies on (Wilson, Heiner, and Lahey), 787
Islet cell adenoma, pancreatic, hypoglycemia due to (François et al.), 721
Isosensitization in rats, experimental nephrosis produced by (Fontana, Kuttner, and Kyriakopula), 195

J

Japanese B encephalitis in continental United States (Blattner), 315
Juvenile regional enteritis, periodic fever in (Walker), 561

K

Kanamycin sulfate in infants and children, ototoxic effects of (Yow et al.), 230
Ketosis in infants and children (Sidbury and Dong), 294
Kidney, fetal, human, studies (Vernier and Birch-Andersen), 754
Kwashiorkor, factors responsible for increased aminoaciduria of (Schendel and Hansen), 280
  and marasmus, serum vitamin B_{12} concentration in megaloblastic anemia associated with (Adams and Scragg), 580

L

Lead, deciduous teeth as index of body burden of (Altshuller et al.), 224
  intoxication, aminoaciduria with renal tubular injury in, compared with aminoaciduria in other diseases (Chisolm), 1
Leprechaunism in male infant (Patterson and Watkins), 730
Lesions, cardiac, in hemolytic disease of newborn (Hogg), 352
Letterer-Siwe, familial, disease (Rogers and Benson), 550
Leukemia, acute, listeriosis complicating (Delta and Pinkel), 191
  central nervous system manifestations of (Steffey), 183
  concordant, parallel responses to chemotherapy in identical twin infants with (Wolman), 91
Leukocytes, atypical mononuclear, significance of (Vaughn and Greenberg), 177

Leukopenia and hypofibrinogenemia in thrombotic thrombocytopenic purpura (Bukowski and Koblenzer), 84
Listeriosis complicating acute leukemia (Delta and Pinkel), 191
Livedo reticularis: form of allergic vasculitis (Bradford, Cook, and Vawter), 266
Long-term effects of ACTH and cortisone therapy in rheumatic fever (Friedman, Harris, and Caddell), 55
Lymphocytic choriomeningitis virus, parotitis, orchitis, and meningoencephalitis due to (Blattner), 633

M

Magnesium deficiency, experimental, electrocardiographic studies in dogs with (Syllm-Rapoport), 801
Maldescent and thyroid dysgenesis in etiology of sporadic cretinism, role of (Gabr), 830
Male infant, trisomy 13-15 in (Townes et al.), 528
Malrotation of intestine, familial occurrence of (Townes, Wunderlich, and Gerbasi), 555
Marasmus and kwashiorkor, serum vitamin B_{12} concentrations in megaloblastic anemia associated with (Adams and Scragg), 580
Masculinization, apparent, of female fetus diagnosed as true hermaphrodism by chromosomal studies (Waxman, Gartler, and Kelley), 540
Medical progress: Artificial hibernation (Véghelyi), 122
Current trends in homotransplantation research in relation to pediatrics (Fowler), 917
Glycoproteins of serum, the (West and Hong), 430
Ketosis in infants and children (Sidbury and Dong), 294
Metabolism of glucose by erythrocytes from patients with congenital hemolytic disorders (Zinkham), 614
Recent advances in the chemistry of inheritance (Cohen), 586
Some aspects of structure and function in cytoplasm (Lowe), 601
Megaloblastic anemia associated with kwashiorkor and marasmus, serum vitamin B_{12} concentrations in (Adams and Scragg), 580
Melanesian children, pneumocystis carinii infection in (Ryan), 914
Meningoencephalitis, parotitis, and orchitis due to lymphocytic choriomeningitis virus (Blattner), 633
Meprobamate and conjugated estrogens (Milprem), acute poisoning in child due to ingestion of (Hyatt), 414
intramuscular, in treatment of tetanus in infants and children (Howard and DeVere), 421
Metabolism of glucose by erythrocytes from patients with congenital hemolytic disorders (Zinkham), 614
Metabolism—Cont'd
iron, studies on (Wilson, Heiner, and Lahey), 787
Metaphyseal dysostosis: questionably form of vitamin D–resistant rickets (Peterson), 636
8-methoxypsoralen in Uganda children, treatment of vitiligo with (Lanceley, Lanceley, and Jelliffe), 572
Milprem (meprobamate and conjugated estrogens), acute poisoning in child due to ingestion of (Hyatt), 414
Mongolism, chromosome studies in diagnosis of (Conen, Bell, and Rance), 533
with mosaic chromosome pattern (Nichols et al.), 69
Mononuclear leukocytes atypical, significance of (Vaughn and Greenberg), 177
Mosaic chromosome pattern with Mongolism (Nichols et al.), 69
Mother-baby oxygen gradients (Graham), 882
Mothers who work, children of (editorial), 484
Muscular dystrophy, coexistent, and arthrogryposis (CPC), 623
in infancy (Lewis and Besant), 376
Mycobacterial infections, nontuberculosis, in children (Hsu), 705

N

National Institute of Child Health and Human Development (editorial), 324
Nephrosis, experimental, produced by isosensitization in rats (Fontana, Kuttner, and Kyriakopula), 195
familial, with deafness and congenital urinary tract anomalies in siblings (Braun and Bayer), 33
Nephrotic syndrome associated with sickle cell anemia, renal disease with elements of (Sweeney, Dobbins, and Etteldorf), 42
Nervous system, central, manifestations of leukemia (Steffey), 183
Neurogenic tumors, systemic manifestations (Kogut and Kaplan), 694
Neuromuscular disease, spinal, and arthrogryposis (CPC), 623
Newborn, urinary constituents of (Rhodes, Hammel, and Berman), 18
News and notes, 160, 321, 479, 641, 805, 960
Nitrogen, serum amino acid, in infancy and childhood (Andrews, Bruton, and de Barre), 201
No. 18 trisomy syndrome (Smith et al.), 513

O

Orchitis, parotitis, and meningoencephalitis due to lymphocytic choriomeningitis virus (Blattner), 633
Origin, antenatal, of disease; balanced perspective (editorial), 644
Ototoxic effects of kanamycin sulfate in infants and children (Yow et al.), 230
Ovarian tumors in infants and children (Reis and Koop), 96
Oxygen gradients, mother-baby (Graham), 882

P

Palsy, sciatic, neonatal, after umbilical vessel injection (San Agustin, Nitowsky, and Borden), 408
Pamoate, pyrvinium, in treatment of pinworm infection (enterobiasis) in home (Turner and Johnson), 243
Pancreas, cystic fibrosis, fatty acid composition of serum chylomicrons and adipose tissue of children with (Kuo, Huang, and Bassett), 394
Pancreatic islet cell adenoma, hypoglycemia due to (François et al.), 721
Parotitis, orchitis, and meningoencephalitis due to lymphocytic choriomeningitis virus (Blattner), 633
Pediatric practice, use of brief psychotherapy in (Coddington), 259
Pediatrics, current trends in homotransplantation research in relation to (Fowler), 917
psychiatry, and delinquency (Stapleton), 740
Periodic fever in juvenile regional enteritis (Walker), 561
Peripheral edema and subcutaneous glycogen deposition following initial treatment of diabetes mellitus in children (Klein et al.), 807
Peritoneal dialysis, intermittent, in management of acute renal failure in children (Etteldorf et al.), 327
Phenylketonuria, problems in outpatient management of (Berlow, Arends, and Barsch), 140 (Abst.)
Physical development of premature infant. I. Some standards and certain relationships to caloric intake (Falkner, Steigman, and Cruise), 895
Physiology and measurement: water in expired air (Bruck), 869
Pinworm infection (enterobiasis) in home, pyrvinium pamoate in treatment of (Turner and Johnson), 243
Pneumocystis carinii infection in Melanesian children (Ryan), 914
Poison control center in pediatric teaching program, incorporating a (Robertson and Ambuel), 140 (Abst.)
Poisoning, acute, in child, due to ingestion of Milprem (meprobamate and conjugated estrogens), 414
animal sera and specific enzymes in treatment of (Shirkey et al.), 711
Polysaccharides, bacterial, of Escherichia coli during enteritis, sensitization of infant red cells by (Young, Gillem, and Akeroyd), 172
Postoperative roentgen studies and clinical significance, of pyloric stenosis (Bishop and Hope), 62
Premature babies, controlled study of effect of temperature on (Jolly, Molyneux, and Newell), 889
infant, foreign body in stomach of (McCollough), 277
physical development of. I. Standards; with certain relationships to caloric intake (Falkner, Steigman, and Cruise), 895
Pressure, increased intracranial, in vitamin A–deficient infants (Blattner), 953
venous, significance of, in congestive heart failure in infancy (Moss and Duffie), 346
Priapism as complication in sickle cell anemia. XIX. (Sousa, Catoe, and Scott), 52
Psychiatry, pediatrics, and delinquency (Stapleton), 740
Psychotherapy, brief, in pediatric practice, use of (Coddington), 259
Pulmonary veins, stenosis, total anomalous pulmonary venous drainage and (CPC), 947
venous drainage, anomalous, total, and stenosis of pulmonary veins (CPC), 947
Purpura, thrombotic thrombocytopenic (Bukowski and Koblenzer), 84
(Swaiman, Schauffhausen, and Krivit), 823
Pyloric stenosis: postoperative roentgen studies and clinical significance (Bishop and Hope), 62
Pyrvinium pamoate in treatment of pinworm infection (enterobiasis) in home (Turner and Johnson), 243

R

Rats, experimental nephrosis produced by isosensitization in (Fontana, Kuttner, and Kyriakopula), 195
Reading disability in children (O'Sullivan and Pryles), 369
Rebound, bilirubin, after exchange transfusion, hemolysis as contributing factor in (Kauder and Mauer), 163
Red cells, infant, by bacterial polysaccharides of Escherichia coli during enteritis, sensitization of (Young, Gillem, and Akeroyd), 172
survival studies, chromium.[51] Thrombotic thrombocytopenic purpura (Swaiman, Schaffhausen, and Krivit), 823
Refractory rickets, growth in (Steendijk), 340
Regional enteritis, juvenile, periodic fever in (Walker), 561
Renal disease with elements of nephrotic syndrome associated with sickle cell anemia (Sweeney, Dobbins, and Etteldorf), 42
failure, acute, in children, intermittent peritoneal dialysis in management of (Etteldorf et al.), 327
syndrome, hemorrhagic fever with (epidemic hemorrhagic fever) (Gajdusek), 841
tubular injury in lead intoxication and patterns of aminoaciduria in other diseases, aminoaciduria as manifestation of (Chisolm), 1
tubule, acid-secreting function (Brodsky and Carrasquer), 769
Resistance, skin, to electricity and sweat chloride content (Batson, Young, and Shepard), 716
Reticularis, livedo: form of allergic vasculitis (Bradford, Cook, and Vawter), 266

Reticuloendotheliosis, prognosis in children (Lahey), 664
Rheumatic fever, long-term effects of ACTH and cortisone therapy in (Friedman, Harris, and Caddell), 55
treated with corticosteroids, indices of activity in (Walker et al.), 815
Rhodesia, Northern, vitamin A deficiency in African children in (Friis-Hansen and McCullough), 114
Rickets, premature infants and older infants with, aminoaciduria in vitamin D deficiency states in (Chisolm and Harrison), 206
refractory, growth in (Steendijk), 340
vitamin D–resistant, metaphyseal dysostosis questionable form of (Peterson), 656
Ringworm of scalp, modern treatment of (Behrman, Mandel, and Morse), 252
Roentgen studies, postoperative and clinical significance of pyloric stenosis (Bishop and Hope), 62
Roentgenographic, clinical, electroencephalographic findings in children with epilepsy, correlation of (Lundervold and Jabbour), 220
Rupture, spontaneous, of esophagus in newborn (Chunn and Geppert), 404

S

Scalp, ringworm of, modern treatment of (Behrman, Mandel, and Morse), 252
Sciatic palsy, neonatal, after umbilical vessel injection (San Agustin, Nitowsky, and Borden), 408
Scleroderma, focal (Chazen, Cook, and Cohen), 385
Sensitization of infant red cells by bacterial polysaccharides of Escherichia coli during enteritis (Young, Gillem, and Akeroyd), 172
Serum amino acid nitrogen in infancy and childhood (Andrews, Bruton, and de Baare), 201
animal, and specific enzymes in treatment of poisoning (Shirkey et al.), 711
chylomicrons and adipose tissue of children with cystic fibrosis of pancreas, fatty acid composition of, (Kuo, Huang, and Bassett), 394
glycoproteins of (West and Hong), 430
vitamin B_{12} concentrations in megaloblastic anemia associated with kwashiorkor and marasmus (Adams and Scragg), 580
Sex-related difference in total body water and exchangeable chloride during infancy (Owen, Jensen, and Fomon), 858
Shunt, ventriculopleural, procedure for hydrocephalus (Kessler and Stern), 418
Siblings, familial nephrosis with deafness and congenital urinary tract anomalies in (Braun and Bayer), 33
Sickle cell anemia. XIX. Priapism as complication in children (Sousa, Catoe, and Scott) 52
renal disease with elements of nephrotic syndrome associated with (Sweeney, Dobbins, and Etteldorf), 42
Skin resistance to electricity and sweat chloride content (Batson, Young, and Shepard), 716
Specificity, immunologic, disulfide bonds in acquisition of (Karush), 103
Spinal neuromuscular disease, coexistent, and arthrogryposis (CPC), 623
Spontaneous rupture of esophagus in newborn (Chunn and Geppert), 404
Stenosis of pulmonary veins, total anomalous pulmonary venous drainage and (CPC), 947
pyloric, postoperative roentgen studies and clinical significance (Bishop and Hope), 62
Stomach of premature infant, foreign body in (McCollough), 277
Storage, glycogen, disease, glucagon tolerance test in (Hug), 545
Structure and function in cytoplasm, aspects of (Lowe), 601
Subacute inclusion body encephalitis (Blattner), 465
Subcutaneous glycogen deposition and peripheral edema following initial treatment of diabetes mellitus in children, occurrence of (Klein et al.), 807
Survival, chromium^{51} red cell studies. Thrombotic thrombocytopenic purpura (Swaiman, Schaffhausen, and Krivit), 823
Sweat chloride content, skin resistance to electricity and (Batson, Young, and Shepard), 716
Syndrome, Cushing's, and virilism in 5-year-old, adrenocortical adenoma with (Puzynski and Biehusen), 836
nephrotic, associated with sickle cell anemia, renal disease with element of (Sweeney, Dobbins, and Etteldorf), 42
No. 18 trisomy (Smith et al.), 513
renal, hemorrhagic fever with (epidemic hemorrhagic fever) (Gajdusek), 841
System, central nervous, manifestations of leukemia (Steffey), 183
Systemic manifestations of neurogenic tumors (Kogut and Kaplan), 694

T

Teeth, deciduous, as index of body burden of lead (Altshuller et al.), 224
Temperature, effect on premature babies, controlled study (Jolly, Molyneux, and Newell), 889
Temporal lobe epilepsy in children (Chao, Sexton, and Santos Pardo), 686

Test, glucagon tolerance, in glycogen storage disease (Hug), 545
Tetanus in infants and children, intramuscular meprobamate in treatment of (Howard and DeVere), 421
Therapy, cortisone and ACTH, long-term effects of, in rheumatic fever (Friedman, Harris, and Caddell), 55
hormone, cardiologic observation 5 to 8 years after. ACTH and cortisone therapy in rheumatic fever (Friedman, Harris, and Caddell), 55
Thrombocytopenic purpura, thrombotic (Bukowski and Koblenzer), 84
(Swaiman, Schaffhausen, and Krivit), 823
Thrombotic thrombocytopenic purpura (Bukowski and Koblenzer), 84
(Swaiman, Schaffhausen, and Krivit), 823
Thyroid dysgenesis and maldescent in etiology of sporadic cretinism, role of (Gabr), 830
Tissue, adipose, and serum chylomicrons of children with cystic fibrosis of pancreas, fatty acid composition of (Kuo, Huang, and Bassett), 394
Tolerance test, glucagon, in glycogen storage disease (Hug), 545
Transfusion, exchange, hemolysis as contributing factor in bilirubin rebound after (Kauder and Mauer), 163
Triplo-X and trisomy No. 18: double trisomy (Uchida et al.), 498
Trisomy, autosomal, of Group 16-18 chromosome (German et al.), 503
double: trisomy No. 18 and triplo-X (Uchida et al.), 498
No. 13-15 in male infant (Townes et al.), 528
No. 18, syndrome (Smith et al.), 513
and triplo-X: double trisomy (Uchida et al.), 498
Tropical pediatrics: Children of the Hadza hunters (Jelliffe et al.), 907
Intramuscular meprobamate in the treatment of tetanus in infants and children (Howard and DeVere), 421
Pneumocystis carinii infection in Melanesian children (Ryan), 914
Serum vitamin B_{12} concentrations in megaloblastic anemia associated with kwashiorkor and marasmus (Adams and Scragg), 580
Study of factors responsible for the increased aminoaciduria of kwashiorkor (Schendel and Hansen), 280
Treatment of vitiligo with 8-methoxypsoralen in Uganda children (Lanceley, Lanceley, and Jelliffe), 572
Vitamin A deficiency in African children in Northern Rhodesia (Friis-Hansen and McCullough), 114
Tuberculosis (CPC), 145
Tuberculosis-like (nontuberculosis), mycobacterial infections in children (Hsu), 705
Tubular, renal, injury, in lead intoxication, aminoaciduria as manifestation of, and patterns of aminoaciduria in other diseases (Chisolm), 1
Tubule, renal, acid-secreting function (Brodsky and Carrasquer), 769
Tumors, neurogenic, systemic manifestations (Kogut and Kaplan), 694
ovarian, in infants and children (Reis and Koop), 96
Twin, identical, infants with concordant leukemia, parallel responses to chemotherapy in (Wolman), 91

U

Uganda children, treatment of vitiligo with 8-methoxypsoralen in (Lanceley, Lanceley, and Jelliffe), 572
Umbilical vessel injection, neonatal sciatic palsy after (San Agustin, Nitowsky, and Borden), 408
United States, continental, Japanese B encephalitis in (Blattner), 315
Urinary constituents of newborn (Rhodes, Hammel, and Berman), 18
tract anomalies, congenital, and deafness, familial nephrosis with (Braun and Bayer), 33

V

Vasculitis, allergic: livedo reticularis (Bradford, Cook, and Vawter), 266
Veins, pulmonary, stenosis, total anomalous pulmonary venous drainage and (CPC), 947
Venous drainage, total anomalous, and stenosis of pulmonary veins (CPC), 947
pressure, significance of, in congestive heart failure in infancy (Moss and Duffie), 346
Ventriculopleural shunt procedure for hydrocephalus (Kessler and Stern), 418
Vessel injection, umbilical, neonatal sciatic palsy after (San Agustin, Nitowsky, and Borden), 408
Virilism and Cushing's syndrome in 5-year-old, adrenocortical adenoma with (Puzynski and Biehusen), 836
Virus hemorrhagic fevers (Gajdusek), 841
lymphocytic choriomeningitis, parotitis, orchitis, and meningoencephalitis due to (Blattner), 633
Vitamin A deficiency in African children in Northern Rhodesia (Friis-Hansen and McCullough), 114
A-deficient infants, increased intracranial pressure in (Blattner), 953
B_{12} concentrations, serum in megaloblastic anemia associated with kwashiorkor and marasmus (Adams and Scragg), 580
D deficiency states in premature infants and

Vitamin—Cont'd
older infants with rickets, aminoaciduria in (Chisolm and Harrison), 206
D-resistant rickets, metaphyseal dysostosis questionable form of (Peterson), 656
Vitiligo with 8-methoxypsoralen in Uganda children, treatment of (Lanceley, Lanceley, and Jelliffe), 572

W

Water in expired air: physiology and measurement (Bruck), 869
total body, and exchangeable chloride during infancy, sex-related difference in (Owen, Jensen, and Fomon), 858
Work, children of mothers who (editorial), 484
